HOHENZOLLERN CASTLE AND OLD TOWN TÜBINGEN

Hohenzollern Castle - Royal stroll with a view

Counts, princes, kings, and even the German emperors have their roots here. The Hohenzollern castle represents about 1000 years of family history. It is still in private hands of the Prussian and the Swabian Branch of the Hohenzollern family and is today one of the most popular tourist destinations in Germany. The view from the castle is impressive. It is located 350 m high above the wide valley on top of the "Zoller" mountain.

The Hohenzollern Castle is located between Stuttgart and Lake Constance, overlooking the town of Hechingen and the surrounding landscape.

The Hohenzollern castle offers daily tours through the magnificent chambers. "Armed" with the legendary carpet slippers, the visitors listen to amusing and worth knowing stories from the lives of Majesties and Highnesses. In the treasury you will see oddities and articles of value, such as the snuff-box, which the "Old Fritz" (King Frederic the Great) saved the life of the Prussian royal crown with their 142 diamonds.

On the days of the "Royal Strolling" you may move around freely through the tour chambers (see date of that days on the website of the castle). In addition to the children and family tours, there are also again a number of events such as open-air cinema, falling star nights, falconer weekends and christmas market.

The castle's restaurant pleases its guests with freshly prepared regional specialties. During the warm season the restaurant serves also in the beer garden of the castle.
